Fire Unlimited Diamond Hack.Q: How to configure cron jobs and logging I would like to setup a cron job to run my Jenkins job and was looking at this page: I think I understand how to set it up, but my question is how do I actually see the log? I want to see output from my Jenkins job, but I'm not sure how to configure this cron job to view it. Do I have to have some kind of monitoring server running and then point cron to that? A: You don't need anything special. You can run the JAR from 6d1f23a050
